

Term 3 and 4:

We have been lucky enough to welcome the local police force into our year 9 lessons to deliver a lesson on the potential legal consequences of using illegal drugs as part of the PSHE curriculum. The pupils have been fully engaged and asked sensible questions. We look forward to welcoming PC Williams and PC Donaldson in again after half term.

08/02/2022

We have been extremely fortunate to have the Police search dog into our school this term as part of our community liaison, careers and drugs awareness programme. The dog is a chocolate Labrador and is an experienced member of the dog section working within the drugs team. This was a planned and organised part of our wider curriculum and enrichment programme.

One of our PSHE classes was very lucky to have a visit from Casper. PC Chris explained his day to day routine with the dog. PC Chris and Casper went outside whilst PC Williams and the class hid the scent. Casper then entered the class to find the scent. When discovering the contraband Casper sat still and wagged his tail to indicate he had found something. He was then rewarded with a toy. The children then had the chance to ask questions.

Thank you to Sussex Police for coming in.
